SENIOR FULL-STACK DEVELOPER, Golrang Industrial Group   2016(MARCH)-2020(JUL)

Golrang Systems :

My work in Safflower Company is divided into three parts:

The first part, which lasted a year, was in HR systems, payroll and clock card, where Tsql and various functions, procedures, Cursor TempTable were used for calculations, and also Asp MVC was used in EndPoint.

The second part lasted two years. It was about Sharepoint, which used PowerForm, Nintext, React, and was also part of Rest Api development.

UI DEVELOPER, Sigma company   2015(MARCH)-2016(MARCH)

In this company, my work was mostly related to the appearance of the site I used html css bootsatrp jquery

SENIOR Backend Developer, Pulse Design (Hourly contract)   2020(MARCH)-2021(MARCH)

I have worked in this company on an hourly and project basis
Most of my work has been on the backend. I have used clean, onion architecture in my projects and most of the projects have been api writing. One of the most important things we have done is to control the access of users per person, which is managed daily and the number of requests.
